#### Characteristics of Programs of Information Literacy that Illustrate Best Practice

## Information Literacy in the Washington Community and Technical Colleges - LSTA Grant

The ACRL Best Practices Survey was previously conducted in summer 2006. At that time, you were asked to measure where your institution was in terms of incorporating information literacy practices when the grant was first awarded and at the midway point. We are administering the survey one final time now. Ideally, the results of the surveys will show an arc of progress in achieving Best Practices at your institution. However, we strongly encourage you to answer each survey question honestly, even if you do not feel this reflects positively on the achievement of Information Literacy goals. Answer each question in the context of your library's practices today.

Go the IL Wiki to see the answers you submitted previously.....

This is being used as a self-evaluation of our progress throughout this grant process. This does not assume all colleges are doing all of these things at the "Program Strength" level or that all of these activities are equally important to us.

**Optional Questions** 

### What activities at your library (or college) have really advanced your information literacy program so far?

Campus-wide focus on program level assessment (the library is a program), focus on student learning outcomes--information literacy is one of our six, librarian outreach and word of mouth among instructors, our involvement with the campus's new HD101 (College Success) course which many students--perhaps eventually all--will take.

#### What challenges or barriers do you still feel you face in implementing the Information Literacy Program you want to have?

Time (or money to "buy" time). We are a group of librarians who always choose to respond to students' or facuty's immediate needs--even when we know that may "hurt" us in the long run.

### Do you feel the grant (and its activities) have been helpful or supportive in accomplishing your goals? What else could be done?

Yes, helpful to have an outside "taskmaster" and an ethical obligation to perform work for the funds we recieved (helped to offset the challenges listed above). Helpful to meet with others engaged in the same work.

Thank you for completing your self-assessment!
